JJ-CCR ApS.

EC Directive 89/686/EEC

EC Type-examination

Issue 1

PPE Product
JJ-CCR Rebreather DIVECAN

- a closed circuit electronically controlled rebreather with a maximum operating depth 100 m. The device incorporates rear mounted counterlungs, an axial scrubber, a shearwater Petrel controller/handset, head up display, automatic diluent valve with an inline isolation valve, manual O₂ addition, manual diluent addition and an intergrated wing style buoyancy control device. The device is required to be used with an autonomous bailout system in accordance with the manufacturers user information notice

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to be in accordance with the requirements of Council Directive 89/686/EEC. When examined the PPE satisfied the relevant requirements in the harmonized standard,
EN 14143:2013 excluding clauses 5.6.1.4.

The manufacturer's information notice (JJ-CCR Rebreather DIVECAN (CE Edition 2.00/ Revision 01), in English, has been inspected and found to have addressed all of the relevant requirements of the standard. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the directive, are implemented and maintained while the model is in production.

Certification is based on technical file reference: JJ-CCR Rebreather
Technical file Version 1. Revision 01.
